Speech for National Space Day 2024

Greetings of the day to everyone present here. Today the 23rd of August, We celebrate ‘National Space Day’ on account of the 1st anniversary of the landing of the Chandrayaan-3 Mission on the moon.

From carrying Rocket parts on a Bi-Cycle and Bullock Carts to Landing on the Moon and successfully establishing an orbiter in the Orbit of Mars on the very first attempt. India’s Space Odyssey has truly grown from the Ground and Blossomed into a beautiful tree giving incredible fruits of scientific knowledge.

This year, The theme is “Touching Lives while Touching the Moon”. This emphasizes on how the space program aims to influence and educate people on India’s space Missions while simultaneously attempting those missions
